Local and national leaders present pediatric topics in their area of specialty during this weekly series.

Objectives:

At the conclusion of this activity, the participant will be able to:

- 1 Discuss the "why" of early detection of CP, including early intervention, neuroplasticity, and parent preferences
- 2 Describe the standardized tools for early detection of CP that can be feasibly implemented into practice even in the NICU
- 3 Identify next steps for new and better interventions for CP driven by earlier detection, implementation, and mechanistic characterization
