

Children's Mercy Kansas City offers our Pediatrics in Practice CME Podcast to provide relevant and timely content for providers caring for children. We encourage to "Select All" on the registration form, as our series is a flat subscription rate. Podcasts will be released monthly, and registrants for each podcast will receive notification of new episodes becoming available.

Once registered, you will find the available podcasts under My CME and [Tests](#). After completing the podcast and the attestation, be sure to complete the evaluation (found under My CME and Evaluations and Certificates). After completing your evaluation, you will receive credit and be able to view your certificate.

Please direct any questions related to CME or claiming credit to cme@cmh.edu.
