

Children's Mercy Kansas City offers our Pediatrics in Practice CME Podcast to provide relevant and timely content for providers caring for children. We encourage to "Select All" on the registration form, as our series is a flat subscription rate. Podcasts will be released monthly, and available in CloudCME or your normal podcast platform.

Once registered, you will find the available podcasts under My CME and [Tests](#). After listening to the podcast, be sure to complete the attestation and the evaluation (found under My CME and Evaluations and Certificates). After completing your evaluation, you will receive credit and be able to view your certificate.

Please direct any questions related to CME or claiming credit to cme@cmh.edu.
