

Children's Mercy Kansas City offers our Medical Interpreter bundles to provide training for medical interpreters in several pediatric clinical areas.

Bundles are offered for a flat rate. We encourage learners to "Select All" on the registration form to gain access to all four modules within a bundle.

Once registered, you will find the modules under My CME and Tests. After completing the module and the attestation, be sure to complete the evaluation (found under My CME and Evaluations and Certificates). After completing your evaluation, you will receive credit and be able to view your certificate. Please direct any questions to [cme@cmh.edu](mailto:cme@cmh.edu).
